

ANITA DANTANI

Shopify Developer and E-commerce Project Manager

 anitadantani0@gmail.com  +919104974221  Portfolio  LinkedIn

PERSONAL SUMMARY

Shopify Developer and E-commerce Project Manager with 6+ years of experience building scalable Shopify/Shopify Plus solutions. Skilled in custom development, API integrations, and performance optimization (LCP). Recognized by Shopify for development excellence, with a strong focus on SEO, team leadership, and delivering high-impact, client-focused solutions.

WORK EXPERIENCE

Senior Shopify Full Stack Developer, *Function Growth*

03/2025 – Current | USA

- Developed custom Shopify apps using React.js and TypeScript to enhance store functionality and improve merchant workflows.
- Built and deployed Shopify Functions and Checkout Extensions to deliver dynamic backend logic and optimized checkout experiences.
- Led end-to-end development of scalable Shopify solutions, including storefront enhancements and complex backend integrations.
- Integrated third-party APIs using RESTful services to extend platform capabilities and automate business processes.
- Improved development efficiency by introducing optimized workflows, reusable components, and clean coding practices.
- Managed full-stack development, handling both frontend and backend to deliver high-performance, scalable applications.

Shopify Developer, *Tenovia Solutions Pvt. Ltd*

12/2023 – 03/2025 | India

- Built and integrated custom API endpoints to enable efficient data synchronization and optimize Shopify store operations.
- Led Shopify B2B and marketplace implementations, overseeing theme development, app integrations, and client communication.
- Utilized Shopify Flow, Git, and Klaviyo to automate processes and improve marketing efficiency and customer engagement.
- Delivered end-to-end projects as both an individual contributor and team lead, ensuring quality, scalability, and on-time delivery.

Shopify Developer, *ISpark IT Services Pvt. Ltd*

03/2023 – 12/2023 | India

- Led a team of developers, ensuring on-time project delivery while mentoring junior team members and promoting continuous learning.
- Developed private Shopify apps using the Admin API to extend store functionality and meet specific business requirements.
- Delivered customized Shopify solutions aligned with client needs, improving operational efficiency and achieving business goals.
- Designed and implemented Shopify applications with seamless API integrations to enhance performance and scalability.

Shopify Developer, *Creapix Infotech*

09/2021 – 03/2023 | India

- Created and maintained bespoke Shopify themes, guaranteeing high responsiveness and an outstanding user experience customized to client specifications.
- Boosted e-commerce solutions by partnering with designers to produce pixel-perfect layouts that meet client requirements.
- Refined Liquid code and introduced responsive frontend designs for a seamless shopping interface, converting Figma designs into high- performance, mobile-optimized webpages.
- Elevated site performance and security by consistently monitoring, diagnosing issues, and implementing improvements for peak functionality.

Technical Lead, Bacha Motors (TATA Motors)

01/2020 – 09/2021 | India

- Designed and developed an in-house database management system using PHP and MySQL, improving internal processes and data accessibility.
- Managed backend support operations, ensuring system reliability, performance, and implementation of security best practices.
- Developed and enhanced RESTful APIs to enable seamless integration with frontend applications and improve user experience.
- Optimized database queries to improve performance and reduce server load, enabling more efficient system operations.
